

# Walk With You

Edwin McCain

Walk With You by Edwin McCain  
Chorus  
I'll take this slow sweet walk with you  
You'll let go of my hand to say: I do  
He will discover just how blessed a life can be  
I know cuz all those years ago  
Someone handed you to me  
Every step that we take  
Brings back the memories  
Winter snows and horse shows  
Dancing on the beach  
I can't help thinking that I'm the lucky one  
You're still my baby daughter  
And now I've gained a son  
Chorus  
I'll take this slow sweet walk with you  
You'll let go of my hand to say : I do  
He will discover just how blessed a life can be  
I know 'cause all those years ago  
Your mom handed you to me  
Don't miss a chance to put each other first  
Now that you've vowed for better or for worse  
Don't let the beauty of this life pass you by  
In the times of trouble you'll stand side by side  
Chorus  
I'll take this slow sweet walk with you  
You'll let go of my hand to say : I do  
I picture a slow sweet walk yet to be  
When you'll take my hand and say : Daddy come see  
Then you'll know what it felt like  
You won't believe what it feels like  
Then you'll know what it felt like  
When she handed you to me  
She handed you to me
