404

Body 13

Going downtown in my 404, with the tape deck blasting away
Cruising along got my sunroof back and I'm thinking about the day
She said she loved me late last night in a very special wayJust carry on, go along
Carry on now, going strong
Carry on nowCome on mama, gonna show you the stars, show you the universe
We're gonna play some cosmic games and I promise you won't get hurt
She's gonna see me at my best, see me at my worstJust carry on, go along
Carry on now, going strong
Carry on nowIt's a magic for real that she's trying to conceal
Proving for real that's she's back in the brain, a pollution
But the words that come out, just go straight down
A definite cloud and a stuffened solutionCome on mama, gonna show you the stars, show you the universe
We're gonna play some cosmic games and I promise you won't get hurt
She's gonna see me at my best, see me at my worstJust carry on, go along
Carry on now, going strong
Carry on now
