Let Me Love You Tonight

Pure Prairie League

Dark clouds are blowing in the wind
He's crossing your mind again
You got that sad sad feeling from a broken heart
Feeling so close to the edge

Let me love you tonight
There's a million stars in the sky
Let me love you tonight
I'll make everything all right

When you find out how good love can be
You're so lost when it's such a free
They say once in your life
You find someone who's right
Someone who loves you like me

Let me love you tonight
There's a million stars in the sky
Let me love you tonight
I'll make everything all right

When the moon has forgotten what the night is about
And the stars can't work and phases out
Hold me tighter than tight
When the daylight comes it will be all right

Let me love you tonight
There's a million stars in the sky
Let me love you tonight
I'll make everything all right

Let me love you tonight
There's a million stars in the sky
Let me love you tonight
I'll make everything all right
