

# Deliverence

## Sick Puppies

Waiting for another line  
Cause you throw them at me all the time  
Gotta get away from all her lies  
And I gotta get away from mine Tell me where to go  
When fate won't deliver  
Cause I can't forgive her  
When I let her know  
This pain I've been living  
Will her next collision be me Bringing situation down  
But her temper's always on the rise  
I'm living what I've seen before  
Well I won't take this anymore  
It's time to hold this to the light Tell me where to go  
When fate won't deliver  
Cause I can't forgive her  
When I let her know  
This pain I've been living  
Will her next collision be me Cause her mental prison is not my decision  
So I'm cutting my losses this time  
I'm no longer living through her tunnel vision Tell me where to go  
When fate won't deliver  
Cause I can't forgive her  
When I let her know  
This pain I've been living  
Will her next collision be me Gotta get away from  
Gotta get away  
Gotta get away this time Tell me where to go  
When fate won't deliver  
Cause I can't forgive her  
When I let her know  
This pain I've been living  
Will her next collision be me
