

Go Home Little Girl

Ola Belle Reed

Go home, go home little girl
Go home before I hurt you
I can't help doin' the things that I do
So go home and find someone to love you

You came to me because that you love me
But I can't give a love same as you
I will love you for tonight
But when dawn brings day light
I will leave and I will only hurt you

Can't you see that I don't want to hurt you
Why cling to me the way that you do?
I want you to go if you say don't you know
Loving me can only hurt you
So go home, go home little girl
Go home before I hurt you
I can't help doin' the things that I do
So go home and find someone to love you
