

# State Of The Union (Live At The Troubadour)

## Rise Against

If we're the flagship of peace and prosperity  
We're taking on water and about to fuckin' sink  
No one seems to notice, no one even blinks  
The crew all left the passengers to die under the sea  
Countdown, to the very end,  
Equality, an invitation that we won't extend  
Ready aim, pull the trigger now,  
In time you firmly secure your place in hell  
State of the union address,  
Reads war torn country still a mess  
The words: power, death, and distorted truth  
Are read between the lines of the red, white, and blue  
Countdown, to the very end,  
Equality, an invitation that we won't extend  
Ready aim, pull the trigger now,  
In time you firmly secure your place in hell
