

Switch

Five

You gotta stop listen up checking out my beats
Know that they're unique, got you jumping out your seats
Never bring the same flow upon a track
Better watch your back when I bring the switch attack now
People when they nod, nod they don't nod to the funk
Thing that I bring make your head wanna ring
Here we come, you know we bring it raw
Get up on the floor 'cos you gotta get some more
Friday night, the party's just around the corner
She'll be there so, I just can't be late
Gotta get my groove thing on, 'cos I'll be dancing all night long
Send me to a place where I can have some fun
Once I get up on the floor, see me coming back for more
See me rocking all my moves, everybody's watching me
Once I get up on the floor, see me coming back for more
See me rocking all my moves, everybody's watching me, switch
Da freak, da freak, da freak, da freak, switch
Rock it like this, rock it like this, switch
Five guys clap your hands, just clap your hands to this
Just clap your hands to the beat now, switch, we get down, switch
Nine o'clock and finally my groove is
swinging
Beats are fine now, I guess it's time to rock
Now the party's on the way, I found out I've got to stay
People start to gather round and round and round and round
Once I get up on the floor, see me coming back for
more
See me rocking all my moves, everybody's watching me
Once I get up on the floor, see me coming back for more
See me rocking all my moves, everybody's watching me, switch
Switch, switch, switch
Yeah, come on, yeah, yeah
Yeah come on, yeah, yeah
Switch, switch
Da freak, da freak, switch
Rock it like this, switch
Five guys clap your hands, switch
Switch, switch, switch, switch
Yeah come on, yeah, yeah, switch
Yeah come on, yeah, yeah, switch
