Call Me

[Kelly Clarkson](#)

I?ve been holding every breathing and
it?s all I can do
Haging on every word and
Just like a fool, I throught I could get over you
So Call me, when you fall in love
So I can get on with my life
Call me, when you find the one
I?ve been thinking what I was all this time
When you fall in love
Call me
Taking the long away hope and
When I get home
It?s all just been a bad dream
Then I?m not alone
And you aren?t gone and move on

So Call me, when you fall in love
So I can get on with my life
Call me, when you find the one
I?ve been thinking what I was all this time
When you fall in love
Call me
Even know I know its wrong
The holding to this holding on
Its coping, what could it be?
I know the truth, and know it hurts
And now I know its not the worst
Letting go it?s not give in
So Call me, when you fall in love
So I can get on with my life
So call me, when you find the one
I?ve been thinking what I was all this time
When you fall in love
Call Me
