Stupid Questions

New Model Army

It's not a crime to be innocent
These things we have not done
But you're not some little child
Spring is past and goneWell I know my craving heart
And I've seen your vicious eyes
And I think we know the truth
Both you and IWell don't flutter your lashes like a little girl
Don't ask me why it's such a cruel, cruel world, noDon't ask any more stupid questions
You already know the answers
Don't ask any more stupid questions
You already know the answers toKill with the best of them
But your smile remains so sweet
When someone comes to eat me alive
Well I like, I like to see their teethIf you really want I can name the names
Be an angel of death at the children's games, soDon't ask any more stupid questions
You already know the answers
Don't ask any more stupid questions
You already know the answers to
Well I know that you doThere comes a time in your life
You got to grow up fast
And I think that your time
Is coming now here at lastNot a crime to be innocent
These things we have not done
But you cannot run forever
Spring is past and goneWaiting in line at the fortune teller
Waiting to hear some more pretty lies, he says"Don't ask any more stupid questions
You already know the answers
Don't ask any more stupid questions
You already know the answers"You already now, now, know, now know
You already know the answers to
I know you do
Come on, come on, come onDon't ask any more stupid questions
Don't ask any more stupid questions
Don't ask any more stupid questions
Don't ask, don't ask, don't ask, don't askDon't ask no more stupid, stupid q-questions
