# America

## Agent Orange

I'm so bored of education
I'm so bored of you
It's such a frustration situation
And I don't know what to doI really wish they'd let me be
To work things out my way
America's been good to me
But I laugh when people sayAll the kids salute the flag
Uncle Sam wants you
Come on boys, let's hear it for the
Red, white and blueI'm so bored of television
TV dinner on a TV tray
Join the Pepsi generation
That's the American wayFight for your country
Fight for survival
Fight for the fear of warSometimes I wonder
Who makes the rules
And I wonder who
They're making them forAll the kids salute the flag
Uncle Sam wants you
Come on boys, let's hear it for the
Red, white and blue
