

Get Out (Haunt Remix)

[Tigerberry](#)

Oh Lord
You are the saviour
The creator
You break the stones
My life
Erased and fallen
It controls meMy fault
Go away
They break me down
What do I do?
Get out and come on
You keep me moving
So close
Don't let me break now
Can not cope this time
I don't know how
I'm ready to change
That's where I am going
They can not stop me
