The City

Madeon

There is a place in the distance
A place that I've been dreaming of no more time
In space non existant
We can dance like there's no tomorrow
There is a place

I got you now
I got you all on me
I got you now
I got you all on me
I got you now
I got you all on me
I got you now

Girl I can feel the city crumbling around me
Can't seem to find my way
Can't seem to drive my car into the dark night
Hoping to find my way
Girl I want it
Ye we gon' race so fast,fast
Act like you want it
Ye Dance like it's no tomorrow

I got you now
I got you all on me
I got you now
I got you all on me
I got you now
I got you all on me
I got you now

I can feel the heart beat underneath the concrete
Just like a catch on place
I can feel the heart beat underneath the concrete
Just like a catch on place
Wandering in straight line
Guided by the street lights
Pushing the dark away
Girl I want it
Ye we gon' race so fast

Act like you want it
Ye Dance like it's no tomorrow

There is a place in the distance
A place that I've been dreaming of no more time
In space non existant
We can dance like there's no tomorrow
There is a place

There is a place in the distance
A place that I've been dreaming of no more time
In space non existant
We can dance like there's no tomorrow

I got you now
I got you all on me
I got you now
I got you all on me
I got you now
I got you all on me
I got you now

I can feel the heart beat underneath the concrete
Just like a catch on place
I can feel the heart beat underneath the concrete
Just like a catch on place
Wandering in straight line
Guided by the strange lights
Pushing the dark away
Girl I want it
Ye we gon' race so fast
Act like you want it
Ye Dance like it's no tomorrow

I got you now
I got you all on me
I got you now
I got you all on me
I got you now
I got you all on me
I got you now
