

# Getaway

Jarell Perry

Oh, it's all you have to have when it's said and done  
It feels up in the play when the battles won  
Won, said and done  
I'mma be where you go, I'll be on the road  
I'mma be where you go, no where possible  
So I try, for me in the background, background I came to find you, I'm holding on you love  
Can't live without you, I gave up on giving on  
Oh no, oh no, don't be afraid  
I know a way we can get away  
We can get away, we can get away  
I know a way we can get away  
It's all you have to have when it's said and done  
To know I'm here when you ain't the only one,  
One, said and done, all the time!  
I'mma be where you go, I'll be on the road  
I'mma be where you go, no impossible  
So I try to be in the background, background! I came to find you, I'm holding on you love  
Can't live without you, I gave up on giving on  
Oh no, oh no, don't be afraid  
I know a way we can get away  
We can get away, we can get away  
I know a way we can get away Driving and driving from miles and miles  
And see that it's all for you  
Driving and driving from miles and miles  
And see that it's all for you  
I came to find you, I'm holding on you love  
Can't live without you, I gave up on giving on  
Oh no, oh no, don't be afraid  
I know a way we can get away  
We can get away, we can get away  
I know a way we can get away
