Bleeding Heart Disease

NOFX

How many polluted my mind Dough what our lives are lived for Rae just a crazy aussie Me the generation forges on Fodder for corporations Sewwing our lips together LA such a nice placteto get shot But don't forget the T it Follows liber in the the constitution Following the part about pursuit Of happiness the bi product Of colonial precious metal Mine extracts which Brings us back To dough Do doToday I saw a kid Torture a cat Too much leisure Teenage Norman Rockwell Paints it black How did the chain get started More is what everyone wants Neydy is what none of us are Co-operation died last night

Me, I'm just a looSo don't expect the best you won't be disapointed when you take
A bite and watch the worm crawl back inside. Listen to the
Fairy tales of million dollar happiness, Los Angeles lifestyles
Drinking chardanay over a lobster salad brunch
The pursuit of million dollar happiness
Happiness was killed we watched it bleed, some say it died from hate
Some say from bleeding heart disease
