

# Love Gun

## Veva

[Verse 1]:

Why should i be a victim of this love  
Why should i feel so ashamed (enough is enough)  
You took everything and left me in the dust  
You knew just right where to aim (and it keeps getting rough)  
The bullet inside is still burning me  
This hole that you left to decay (Ay)  
Will time ever heal this broken heart?  
Will the pain ever go away?

[Chorus]:

You got your gun pointed at my love  
I dont know how to feel  
It don't seem like this real (No)  
You had your gun pointed at my heart  
I guess you were going for the kill kill kill (Thats when I)  
I scream murder murder, murder murder (M Murderer)  
I scream murder,murder, murder murder (M Murderer)  
I scream murder murder, murder murder (M Murderer)  
We can't go no further  
Your just a murderer

[Verse 2]:

I wish it was easy to let this go  
I'm still haunted by your face  
I want you to hurt like i hurt  
What you did will come back your way  
You just can't justify  
I can't take no more lies  
It's driving me crazy (It's driving me insane)  
You made me feel so used  
There is just no excuse (No)  
I've never felt so betrayed

[Chorus]:

You got your gun pointed at my love  
I dont know how to feel  
It don't seem like this real (No)  
You had your gun pointed at my heart

I guess you were going for the kill kill kill (Thats when I)  
I scream murder murder, murder murder (M Murderer)  
I scream murder,murder, murder murder (M Murderer)  
I scream murder murder, murder murder (M Murderer)  
We can't go no further  
Your just a murderer

[Bridge]:

Is this my sentence for loving you  
Is it just a sign  
Could this be my cue  
I've been a prisoner for so long  
But it's not enough to finish me off  
Oh no

[[Chorus]:

You got your gun pointed at my love  
I dont know how to feel  
It don't seem like this real (No)  
You had your gun pointed at my heart  
I guess you were going for the kill kill kill (Thats when I)  
I scream murder murder, murder murder (M Murderer)  
I scream murder,murder, murder murder (M Murderer)  
I scream murder murder, murder murder (M Murderer)  
We can't go no further  
Your just a murderer
