

Always the Same

Razia

There's a young girl working the corner
There's an old man lost at sea
They could tell you a million stories
About the wrong side of the street
There's a rich man making money
From a poor man's misery
It's always the same
Always the same, fight for survival
Whatever we do today
Don't make tomorrow the same
Fight for survival
Forget about yesterday
Don't make tomorrow the same
There's a runaway looking for shelter
An innocent heart that bleeds
There's a blind man playing for pity
Says it's the only way to make ends meet
And he's living of his hard luck story
Says he's a victim of society
It's always the same
Always the same, fight for survival
Whatever we do today
Don't make tomorrow the same
Fight for survival
Forget about yesterday
Don't make tomorrow the same
The seasons come and go

And all the questions of why
How will we ever know if we never try?
Always the same, fight for survival
Whatever we do today
Don't make tomorrow the same
Fight for survival
Forget about yesterday
Don't make tomorrow the same
Fight for survival
Whatever we do today
Don't make tomorrow the same

Fight for survival
Forget about yesterday
Don't make tomorrow the same
Fight for survival
Whatever we do today
Don't make tomorrow the same
Fight for survival
Forget about yesterday
Don't make tomorrow the same
Fight for survival
Whatever we do today
Don't make tomorrow the same
Fight for survival
Forget about yesterday
