Synthicide

SSQ

It was right before my eyes
There were a thousand other guys
In synthicideI've been caught on a one way street
In the big electronic beat
In synthicideGive me a break it's a tricky situation
Don't give it all away
I gotta have my digital fix todayI'm out of phase
Help me I'm falling losing my place
Is that you calling crimson and ice
Feeling no pain
SynthicideIt's on program eighty-eight
Duel mode arpeggiate
SynthicideIt's like clockwork out of sync
A memory to help you think
Synthicide
Give me a break it's a tricky situation
Don't give it all away
I gotta have my digital fix todayI'm out of phase
Help me, I'm falling losing my place
Is that you calling crimson and ice
Feeling no pain
SynthicideIt was right before my eyes
There were a thousand other guys
In synthicideIt's like clockwork out of sync
And the memory makes you drink
SynthicideSynthicide
Synthicide
Synthicide
In synthicide
SynthicideSynthicide
Synthicide
Synthicide
