

Earth To Bella (Part I)

Incubus

Earth to Bella
You think you've got it all figured in
Earth to Bella
Everything you know is wrong, well almost Earth to Bella
I see where you are not listening
I bear the burden
Of being the voice that let's you know we all grow old
And before you swim you've gotta be okay to sing Earth to Bella
The world can be an unfriendly place
So hold your head up
And do your best to save some face, it's not so hard
Just undo yourself and see your second son escape Okay to sing
I'm okay to sing
Okay to sing
Okay to sing
