Lest We Forget

Bolt Thrower

War to end all wars
Hatred lost control
Casualties now mounting
Tales yet still untoldLife's eradication
Of man now beyond all reason
Totally insane
The human race becomesLest we forget
Thoughts will always haunt the mind
Lest we forget
The bitterness remainsVast termination
Man made rationality
Complete elimination
Of life beyond brutalityEternal resentment
Re-occurs time after time
Driven to despair
Extinction drawing nearLest we forget
Thoughts will always haunt the mind
Lest we forget
The bitterness remainsLest we forget
The thoughts will always haunt the mind
Lest we forget
The bitterness remainsCommence removal
Of all things valued in life
The persecution
What was once believed rightHumanities objective
Now totally deranged
When ignorance transpires
This world becomes insane
