

Lest We Forget

Bolt Thrower

War to end all wars
Hatred lost control
Casualties now mounting
Tales yet still untold
Life's eradication
Of man now beyond all reason
Totally insane
The human race becomes
Lest we forget
Thoughts will always haunt the mind
Lest we forget
The bitterness remains
Vast termination
Man made rationality
Complete elimination
Of life beyond brutality
Eternal resentment
Re-occurs time after time
Driven to despair
Extinction drawing near
Lest we forget
Thoughts will always haunt the mind
Lest we forget
The bitterness remains
Lest we forget
The thoughts will always haunt the mind
Lest we forget
The bitterness remains
Commence removal
Of all things valued in life
The persecution
What was once believed right
Humanities objective
Now totally deranged
When ignorance transpires
This world becomes insane
