

# You Are Good

Jeff Deyo

Some would say that you cannot be found  
And some would say that you are far away  
But I know you're the god who lives in me  
And I know you will always have my heart'Cause you are good  
And your love endures forever  
You are good  
And your love endures forever  
You are good  
And your love endures forever  
You are good  
You are goodSome would say that you cannot be found  
And some would say that you are far away  
But I know you're the god who lives in me  
And I know you will always have my heart'Cause you are good  
And your love endures forever  
You are good  
And your love endures forever  
You are good  
And your love endures forever  
You are good  
You are goodYou are the only one  
You are the one that I desire  
You are the only one my kingYou are the only one  
You are the only one my king'Cause you are good  
And your love endures forever  
You are good  
And your love endures forever  
You are good  
And your love endures forever  
You are good  
You are good'Cause you are good  
And your love endures forever  
You are good  
And your love endures forever  
You are good  
And your love endures forever  
You are good  
You are goodYou are the only one

You are the one that I desire  
You are the only one my king You are the only one  
You are the one that I desire  
You are the only one my king
