DO YOU?

Do you love me?
Do you love me?
Do you love me like the way I love you babe? (x2)

My prediction was right
Since the day I first met you
You captivated my heart, which no one was able to have
Mon, Tues, Wed, Thurs, Fri, Sat, Sun, I only think of you
Morning, lunch time, evening, dawn, all day you burn me up
In the end, L O V E is what I say
I think I have fallen into the ocean called you

Is it only my misunderstanding?
I want to believe that you feel the same

No one can understand but
I want to ask you

D.O.Y.O.U.L.O.V.E.
DO YOU?

Do you love me?
Do you love me?
Do you love me like the way I love you babe? (x2)

I hope our amazing encounter
Is not just a typical misunderstanding
Shake up my tightly jammed heart
Rock n roll

The moment I first saw you, my heart was already K.O
No matter how hot someone is, if they want me, I say no
You're the key to my heart

I only open to you
This is my last love
Donâ€™t leave me

Is it only my misunderstanding?
I want to believe that you feel the same

No one can understand but
I want to ask you

Do you love me?

Feels like we can be together till the end of our lives
Letâ€™s be together till the end of the universe, donâ€™t let go of my hand
Feels like we can be together till the end of our lives
Letâ€™s be together till the end of the universe, donâ€™t let go of my hand

Do you love me?

Do you love me?

Do you love me?

Do you love me like the way I love you babe? (x2)
