Just Look At You

Jimmy Wayne

Just look at you, you're perfect
Without trying to, you steal the moment
What you do to me, if you only knew
Just look at youYour beautiful face, I swear it's true
You get more beautiful every day
Everything you are, every little thing that you do
Just look at youForgive me if I stare a little too long
No, baby, don't think that there's anything wrong
It's alright, it's never been so right
Just look at youI can't believe my eyes
I'm so amazed by the way you make me feel deep down inside
I'm one lucky man
Oh, I know I am, yeahForgive me if I stare a little too long
No baby, don't think that there's anything wrong
It's alright, it's never been so right
Just look at youI'm so in love, you're all there is
You know, baby, you're all there ever was
I could stay right here
Oh, I'm gonna stay right here
So in love my whole life through
And just look at youForgive me if I stare a little too long
Baby, there ain't nothing wrong
I'm gonna be alright
