

Consult My Lover

Afi

You've got something to say, or so you say to me
Then you receive a blank stare
You've got something to say of importance
And gosh that's really good to hear I'm, I'm proud of you, so proud of you
I'm proud, I'm very proud of you
I'm, I'm proud of you, so proud of you
I'm proud, I'm very proud of you You've got some S.P., something to show to me
Well, I have seen it before
I can't compete, I can't impress you
I guess I'll show you the door I'm, I'm proud of you, so proud of you
I'm proud, I'm very proud of you
I'm, I'm proud of you, so proud of you
I'm proud, I'm very proud of you I'm, I'm proud of you, so proud of you
I'm proud, I'm very proud of you
I'm, I'm proud of you, so proud of you
I'm proud, I'm very proud of you
