# Sex Calls

## Harrison Brome

[Verse 1]
She's been telling me I know
That you want to let things grow
But I've been through
Hell and back before
You chose to cruise
Your way into my soul

[Pre-Chorus]
She said I don't need nobody more than sex calls
Boy I don't mean nothing by my "L" Bombs
Hides behind that smoke
But girl you want to let go
I know you want to let go
I know you wanna let go

[Chorus]
And you just want to be loved
And you just want to be loved

[Verse 2]
She's been knocking on my door
Fucking just to feel there's something more
She denies it
Cause this girl is insecure
I'm just asking what you lying for?

[Pre-Chorus]
She said I don't need nobody more than sex calls
Boy I don't mean nothing by my "L" Bombs
Hides behind that smoke
But girl you want to let go
I know you want to let go
I know you wanna let go

[Chorus]
And you just want to be loved
And you just want to be loved
And you just want to be loved

And you just want to be loved
