

# Out of Reach

[BBMak](#)

Everyday just seems so long  
Every minute that I'm here without you  
Will tomorrow ever come?  
Will I ever get the chance to feel you? I need you so much You're out of reach, you're out of reach but you're so  
close  
You're out of reach, you're out of reach but you're so close  
You're out of reach, you're out of reach but you're so close  
I hear you call, I feel you fall but you're out of reach Another room where I can hide  
Another night without you here beside me  
'Cause I don't want to fake it  
I'm just trying to make it, yeah I need you so much You're out of reach, you're out of reach but you're so close  
You're out of reach, you're out of reach but you're so close  
You're out of reach, you're out of reach but you're so close  
I hear you call, I feel you fall but you're out of reach I need you so much You're out of reach, you're out of reach  
but you're so close  
You're out of reach, you're out of reach but you're so close  
You're out of reach, you're out of reach but you're so close  
I hear you call, I feel you fall but you're out of reach You're out of reach but you're so close  
You're out of reach but you're so close  
You're out of reach but you're so close
