Take It

Eric Benet

Girl, it's time I confess that my mind's been a mess
Since I met you, lady
You got a vibe on your own, sex appeal overlord
It's kinda special, babyI wanna give you all I got
I be lying to say I'm not, I've been intimidated
You're doing more than the most
Living high coast to coast
I'm still trying to make it, yeahI don't really need a man scared to take control
I'm scared, baby
He gotta just tell me how it's gonna be
How it's gonna beIf you can't step up, boy
You better just step out
'Cause if you want what's real
You gotta come for realI don't know what I need to do
But I sure wanna get with you
Come and take it if you want it
I really, really wanna take itStrong and tender, finest hair
Gots to have you for myself
Come and take it if you want itOh, you'll be so surprised
That many men just pass me by
They think I'm spoken for
Or at times my success makes them
Feel less about themselves
So they want out my doorAs you can tell I'm a queen
Nobody needs to rescue me
So don't get me wrong, no
But if you're down for a try
If you can stimulate my mind
Give the girl a callI don't really need a man scared to take control
I'm scared baby
He gotta just tell me how it's gonna be
How it's gonna beIf you can't step up boy
You better just step out
'Cause if you want what's real
You gotta come for realI don't know if you feel it too
But I'm surely thigging you
Come and take it if you want it
All I need to hear, babyAnd I don't know if I'm out of line
But do I need to make your mind

Come and take it if you want it
I don't know what I need to do
But I'm trying to get with youCome and take it if you want it
I'm trying, I'm trying
I'm trying to come and get
Strong and tender, finest hair
Gots to have you for myself
Come and take it if you want it, yeah babeI've been watching every move
You make and game you play, game I play
I've been hanging on all the words
You say to get you, babeYou wanna get it, baby?
I don't wanna have to wait
No more to make that call
I'm coming over
Let me take it girl, all night long
Is that how you feel?I've been watching
Every move you make
And game you play, it's time that it's free
I'm hanging on to every word
You say to get you, babe
Is that how you feel?I don't wanna have to wait
No more to make that call
It's time that it's free
I'm coming over girl
Let me take it girl, all night longI ain't looking for a man
Scared to take control, I ain't scared baby
He gotta just tell me
How it's gonna be, I'ma tell you girlIf you can't step up, boy
You better just step out
I know what you need, baby
'Cause if you want what's real
You gotta come for realI don't know if you feel it too
But I'm surely thigging you
Come and take it if you want itAnd I don't know if I'm out of line
But do I need to make your mind
Come and take it if you want it
I don't know what I need to do
But I'm trying to get with youCome and take it if you want it
Come on and take it
Strong and tender, finest hair
Gots to have you for myself
Come and take it if you want it, yeah babeAre you thinking what I need? I really, really do
You know I'm the queen, right?
I see you think you can just come and take it
You're the queen, I know what you needDo you mean that?

You know what I mean
I got what you need, yes I do
You can try to be my babe
Come on take it, take it, take it babe
I'ma take it, babeDo you know I'm a queen?
Do you know I'm a queen?
I said do you know I'm a queen?
