**Sharon Van Etten**

You when you lose an  
In a color of sorrow all over me  
You with eyes through  
Many forward I'm given and...  
You you something  
You mean something  
Turn your... on me  
Turn your... open to you You seen me yourself  
Tell em you want to be...  
You only the sun  
To an endless you want to be over  
You is all you  
You is all you  
How I want to be you  
I want to show you  
Only hold you... over you  
How I'm to show you  
All beside me
