Feel the Flow

Dubdiver

Feelin' like, feel like nah nah nah, all I hear is blah blah blah
What's it like to have everything, and then wonder who you are
Realize, you're not the only one, take a number stand in line
Don't look down when you fall, it's just a waste of time

Release your mind

Feel the flow, just let go, look inside everything'll be alright
Feel the flow, don't you know, every day is ours to taste

Justify, your secret alibi, nobody will ever know (shh)
Need a thrill, take your bitter pill
Drop the picture perfect girl on show

Release your mind

Feel the flow, just let go, look inside everything'll be alright
Feel the flow, don't you know, every day is ours to taste
Feel the flow, just let go, look inside everything'll be alright

Breath by breath, day by day, inch by inch, you'll find your way
Breath by breath, day by day, inch by inch, you'll find your way

Feel the flow, just let go, look inside everything'll be alright
Feel the flow, just let go, look inside everything'll be alright
Feel the flow, don't you know, every day is ours to taste

Don't waste it
Don't waste it

Nah nah nah, nah nah nah nah, yeah
