Fall For You

Kylie Minogue

Didn't know the risk I'm taking
'Cause I know all the rules
I'm breaking are all for you
Never gonna let go, 'cause you knowI can't believe I'm falling
In love another time
How long have you been calling
My heart up on the line?So why did you go settin' off the alarms?
Screaming out load, can't resist your charms
Hard as I try can't ignore it or runaway
I will fall for you, babyAnd why did go set your aim on me?
Try to make it cool but there's chemistry
I'm in a fix and I'm finding it hard
I couldn't say I will fall for you, babyDidn't know the risk I'm taking
'Cause I know all the rules
I'm breaking are all for you
Never gonna let go, 'cause you knowI can't believe I'm falling
In love another time
How long have you been calling
My heart up on the line?So why did you go settin' off the alarms?
Screaming out load, can't resist your charms
Hard as I try can't ignore it or runaway
I will fall for you, babyAnd why did go set your aim on me?
Try to make it cool but there's chemistry
I'm in a fix and I'm finding it hard
I couldn't say I will fall for you, babySo why did you go settin' off the alarms?
Screaming out load, can't resist your charms
Hard as I try can't ignore it or runaway
I will fall for you, babyAnd why did go set your aim on me?
Try to make it cool but there's chemistry
I'm in a fix and I'm finding it hard
I couldn't say I will fall for you, babyAnd why did go set your aim on me?
Try to make it cool but there's chemistry
I'm in a fix and I'm finding it hard, couldn't say
I will fall for you, baby
