# Hypernight

## Title Fight

Vague I'm so misleading
Forgotten feelings
Try to read my mind
Hiding secrets in front of open eyesSee a question in its reflection
Never knowing more
Than if you're the flower
Or if you're the soil.Spent my life
Trying to make everything right
Hypernight
Widened sight to make me realizeTry
to forgot all the things
I want to do before I die
It's just a waste of all my precious timeSee an answer in darkness pure
Hypernight is mine
The truth is within
A darker skyI don't want to see things differently
It's what I taught myself to believeSpent my life
Trying to make everything right
Hypernight
Widened sight to make me realizeEmotions that I know so well
Carry me
To a place of discontent
Ungrudgingly
