

Time Ain't Cheap

Scat Grub Band

I am always trying to find a way to get out of my cell
Working eight days a week man itâ€™s a living hell
But Iâ€™ve got to make this bread to pay all of these bills
And if I can find me some time Iâ€™m going to get my thrills

Lately I have been trying to find the time to find some time
To try and find myself again
Life is better sweet and time is never free
If only I could have one day, just one day to myself

2 cups of coffee in the morning and Iâ€™m out the door
Boss man is been giving me shit I canâ€™t take it no more
I have been on my feet 12 hours Iâ€™m so damn sore
When Friday gets here Iâ€™m going to have me some beer and get torn

Lately I have been trying to find the time to find some time
To try and find myself again
Life is better sweet and time is never free
If only I could have one day, just one day to myself
