Slow Down Time

Us The Duo

Our life wasn't always quite like this
Used to kick back and relax yeah it was pure, bliss
Then suddenly things changed and our life was rearranged
Every moment goes by so fast
My days would always start with you
We would wake up hold hands with nothing to lose
The seconds lingered on as we played our favourite songs
Now every moment goes by so fastCan we slow down time?
Just you and I
Lights are flashing people move but when I look into your eyes
We can slow down time
Baby we can slow oh-oh-oh-oh(x2)Our life is busier these days
We can't keep track of the memories we make
The scenery will change will you still love me the same
Let's freeze the moment before it's passedCan we slow down time?
Just you and I
Lights are flashing people move but when I look into your eyes
We can slow down time
Baby we can slow oh-oh-oh-oh(x2)Can we slow down time?
Just you and I
Lights are flashing people move but when I look into your eyes
We can slow down time (x2)We slow down time
Just you and I
Lights are flashing people move but when I look into your eyes
We can slow down timeWe can slow down time (x2)
