

Clear

Kevin Max

It's only in the silence I can hear
Only in the silence I can hear
You speak clear to me
It's so clear to me
It's only in the silence I confess
Only in the silence manifest
You speak clear to me
It's so clear to me

In a constant awareness
A constant awareness
A hyper vigilant mode
A hyper vigilant mode
I lost myself in the moment
And now that I know it
Your voice is the Word
Your voice is the Word

It's only in the silence I can hear
Only in the silence I can hear
You speak clear to me
It's so clear to me
It's only in the silence I confess
Only in the silence manifest
You speak clear to me
It's so clear to me
