

Always Never

Porcupine Tree

I feel no pain
'Cos I'm an island
I will remain
In the deafness of your silence I love you sometimes
Always never
He said you're here
Here with me now I feel no gain
When you're around me
I'll try again
In the darkness you astound me I love you sometimes
Always never
He said you're here
Here with me now I love you sometimes
Always never
He said you're here
Here with me now It's growing cold
I'm growing old
Is this the only way to see the fire?
It's raining
