

# Big Sister

Amy LaVere

Who controls your mind? There have been changes  
No more giving it all for free  
There will be changes  
Now woman is all you'll need Here is a number  
You've been given another name  
We will be watching  
One might fall but you'll all be blamed  
Shame, shame Here's big sister  
We're big sister  
Hear, big sister  
There's big sister  
Dancing on your grave Who controls your mind?  
Who's in charge of hearts?  
Who controls your time?  
We're in charge of you There have been changes  
Even mother's a soldier now  
There have been changes  
You can touch 'cause  
You don't know how, no Here's big sister  
We're big sister  
Hear, big sister  
There's big sister  
Dancing on your grave Pretty faces, young and clean  
Watching you from magazines  
All they want is something more  
Kill the King and then we'll crown the whore Here's big sister  
We're big sister  
Hear, big sister  
There's big sister Who controls your mind?  
In charge of hearts  
Controls your time  
In charge of you  
Here's big sister  
We're big sister, control
