Larger Than Life

Downhere

Yeah yeah
Yeah yeah
Yeah yeahWalk this life beneath the stars
Contemplate just who we are
Against the backdrop of knowing GodSeasons pass, they come and go
But one thing keeps its worth in gold
A timeless bond, sharing dreams we holdIt's larger than life, it's larger than we
It's bigger than You, it's bigger than me
It's larger than lifeThere's something here that tells me so
I was not made to walk alone
It sharpens me to know we stand as oneThere's something here that tells me so
I was not made to walk alone
And it sharpens me to know we stand as oneOh, it's larger than life, it's larger than we
It's bigger than You, it's bigger than me
It's larger than lifeWill our lives reflect the Maker
Of the sky we're living under
It changes all to know You're really thereWhen the space between us falls apart
You're the bridge that spans our heartsYou're larger than life, You're larger than we
Who's bigger than You? You're bigger than me
You're larger than life, You're larger than we
Who's bigger than You? You're bigger than me
