Feed

Atreus

I erased you
From my every waking memory
I replaced you
With a vision that you won?t see
Pity is a four letter word
And so is quit and so is left
But I?m right where you wanted me
Feed from the inside
Out of bitter sympathy
You want me wrong but I?m right
May I remind you
It doesn?t take much time to call
Can I respect you
If a man was never there at all?
Pity is a four letter word and so is quit
I thought you knew that pity was a four letter word
And so is quit and so is left
But I?m right where you wanted me
Feed from the inside
Out of bitter sympathy
You want me wrong
But I?m right where you wanted me
Feed from the inside
Out of bitter sympathy
You want me wrong but I'm right
I replaced you with a vision that you can?t see
Right where you wanted me
Feed me from the inside
Out of bitter sympathy
You want me wrong
But I?m right where you wanted me
Feed from the inside
Out of bitter sympathy
You want me wrong
But I'm out of bitter sympathy
Right where you wanted me
Out of bitter sympathy
