Meeting Skylar

James Quick

I let you in so you walked through
it only been a day or two
My heart would sink to let you float.. away
What can I feel, it's just too soon
Point is I feel it all with you
If I could steal away our fate
I'd find a way
Cuz I remember how I felt the first day
I'd explain it, but I never felt the same way
Then you told me that you feel it too
And I knew that we'd have a chance
Yeah
Then we said it's moving fast, we'll slow down
But I missin just the way you laugh and I found
Oh I'm just playing back the memories
In my head but without an end, yeah
I tried to play it cool I'm secretly a fool
For how you make me feel and what you make me do
yeah yeah
You'd stay awake with me and look me in the eye
You tell me about yourself had nothing left to hide
Yeah yeah

I don't know how long it take for two lost souls to find their mates
Something is telling me to say
That I am wagin (?)
If I could sweep you off your feet
let those two lost souls finally meet
I could kiss you night and day
I'd find a way
I try to play it cool I'm secretly a fool for how you make me feel and what you make me do yeah yeah
You'd stay awake with me and look into my eyes
You told me about yourself had nothing left to hide
Yeah yeah
I tried to play it cool I'm secretly a fool for how you make me feel and what you make me do
Yeah yeah
You'd stay awake with me and look into my eyes you tell me about yourself had nothing left to hide
yeah yeah
