# No Love

## Toto

At the end of my life, when it's time to depart
Will the last face I see be your's?
When I take my last breath and I drift through the dark
Will I look 'round and still feel secure?It's no sacrifice to stay by your side
Till Hell freezes clear to the core
Whatever the price no matter how high
Over your shoulder when you turn around
I'll be tellin' you(No love)
Will ever be stronger
(No love)
Not anywhere, no, no
(No love)
Will ever last longer
If I can't have your love, I don't want no love at all, whoa, whoaI'll put my change on the dresser next to your scarf
Cook my heart in the skillet next to your's
Ten thousand tears, they lead up to now
You are the treasure for sureLines on my face, they get deeper each day
But the feelings are ageless and smooth
One single trace of doubt still remains
Over my shoulder when I turn around
Will you be tellin' me?(No love)
Will ever be stronger
(No love)
Not anywhere, no, no, no, no, no
(No love)
Will ever last longer
If I can't have your love, I don't want no love at all, oh, oh, ohIt's no sacrifice to stay by your side
Till Hell freezes clear to the core
Whatever the price, no matter how high
Over your shoulder when you turn around
I'll be tellin' you(No love)
Will ever be stronger
(No love)
Not anywhere, no, no, no, no, baby
(No love)
Will ever last longer
If I can't have your love, I don't want no love at all(No love)
Oh, will never be, ever be stronger

(No love)
Not anywhere, no, no
(No love)
Will ever last longer
If I can't have your love, I don't want no love at all, whoa, whoa
No love at all
