

Fight for Your Life

Judas Priest

Get a grip on the action
I'm moving heaven and earth
Don't let go of the action
Push for all that you're worth No denying
It goes against the grain
So defying
You're screaming again Fight for your life
Fight for your money
Fight for your life
Fight for your money Time for steel, stop at nothing
Looking fate in the face
We don't take no for an answer
Grab the lead in the race
