

Black Session

Katatonia

I sense infliction in the air
It's only me
I'm fucking up old times
It's a remembrance Oh, this black session in my mind
Oh, the black I was too weak to fight
Once more I let go
It is a black session
An invitation of sorts Oh, this black session in my mind
Oh, the black I keep on living in this my only wish
That life will be good someday
I keep on losing my sleep because of this
Seems oh, so hard just to stay I keep on living in this my only wish
That life will be good someday
I keep on losing my sleep because of this
Seems oh, so hard just to stay So if you come by just this last time, I'll be here
And I will talk to you like if this had never been Oh, this black session in my mind
Oh the black
