Trudge

Trash Talk

Firebomb the firmament
You'll find there's nothing worth the burn
Tear down the institutions
There's no one left to learn
Scratch at the scabs on the hands of the man
Who hatched man as those hands has an ominous plan
Rock your waders
Release the hounds
Repeating spiral
As pariahs trudge the underground
Pray for patience
Lay thee down
Late submission
As survivors trudge the underground
Sizzling sensation heard 'round the world
Birth of a generation - equality deterred
Set forth and scorch the prisons
Free the birds
Promised forgiveness just fell as hollow words
Rock your waders
Release the hounds
Repeating spiral
As pariahs trudge the underground
Pray for patience
Lay thee down
Late submission
We survivors trudge the underground
