

Spend The Night (it's Alright)

[Jesse Powell](#)

Spend the night alright(Chorus)

Baby, it's OK

Honey, it's alright

You want to spend the night

Oh, it's alright(Verse 1)

Oh, so fine

And you're being kinda shy

Ooh, but that's alright

Girl, I think I know

What's on your mind, oh

'Cause it's getting late

And you're still here with me

Don't be afraid

To say what you really mean(Chorus x 2)(Verse 2)

Baby, I can see

I can see that you're in need

So, put your trust in me

And you won't have to wait any longer
