Abracadabra Holmes

Daggermouth

I'll take the best part of you with me
I promise I'll lie each time we speak
What you gonna do when your world comes crashing down?
And you'll rest assure that I always had my doubtsDirections from directionless people aside
Slowed down but fighting so hard to survive
I know you tried
You tried to do everything right for me this time
But I think there is something you should know
Decisions made by me I'll stand by aloneYou let me down, I really thought we had a chance this time
It starts to show exactly how your actions got so old
You ought to know, it's only a matter of time before we let you go
We'll still be bros but for now we're leaving you on your ownWhat you gonna do when your world comes crashing down?
And you'll rest assure that I always had my doubts
