

# Free

## Lakisha Jones

Been traveling on this road for a long time

Trying to figure out who I am inside

Because I think that in time

I'll become who I should be

(free)

Going through this journey

to find out what I'm supposed to be

Instead of all this stressing

I'm going to live free

(free)

Free like an eagle flying

(free)

Father will you give me guidance

(free)

Show me where the light is I want to live my life in power

That's why I face up to my duties

It's the 25th hour

And I refuse to live in defeat

(free) it has

to be something better than this

I pray that I sustain

The trials that I've been going through

I know that there is gain I see the shadows up ahead Not scared what the future may bring
