

# Golden Child

## Nataniel

I watch your life  
It goes me by  
Like a movie  
Like a winter sky And I hear your voice  
I watch you turn  
As you rehearsed the play  
There's so much to learn [Chorus]  
'cause you're the golden child  
Running with wings on your feet  
Tell me what you find  
At the end of every street  
I see you dance with your friends  
To a song of your own  
But if they go away  
And one day you're alone  
Baby I'll be there Child we live in a place  
Where they'll never ever care  
About the lost and lies  
They refuse to share  
We, we can't turn away  
From all that we see  
But if they never change  
You teach me to run free [Chorus]  
'cause you're the golden child  
Running with wings on your feet  
Tell me what you find  
at the end of every street  
I see you dance with your friends  
To a song of your own  
But if they go away  
One day you're alone  
Baby I'll be there So if they go away  
Just maybe you're alone  
Baby I'll be there
