

I'm Wasted

Ghost Town

Advisory - the following lyrics contain explicit language:

I should have seen her coming for me
But love was not the thing that took my life
She took me to her laboratory
Filled me with her potion till I died It all started so right
Then we put it in flight
Now we're going the wrong way
Attention all passengers, this is a massacre,
But thank you for choosing this flight
And all the howling noises reveal,
Just how damn charming this feels
Just how damn charming this feels Love drug, love drug
Overdose, now I'm wasted
Your love is no fun
Chemicals with no chaser. She picked me up after 2 AM, that night
If only I'd known her plan
Her agenda won't take me alive
She's got another thing that's coming
I've got a surprise
If only she'd known my secret
She might think twice (She's got another thing that's coming
I've got a surprise
If only she'd known my secret
She might think twice) Love drug, love drug
Overdose, now I'm wasted
Your love is no fun
Chemicals with no chaser Love drug, love drug
Overdose, now I'm wasted
Your love is no fun
Chemicals with no chaser I fell in love in the afterlife
The blood my body drained from your sight
I've never felt anything so right
The sound of my skin when I'm marked by your bite

Your touch
Your touch
Your touch is bringing me back to life
I'm back to life[Spoken:]
What kind of drug are you?
No more secrets, whispers or lies
I've been dead this whole time Love drug, love drug
Overdose, now I'm wasted
Your love is no fun
Chemicals with no chaser Love drug, love drug
Overdose, now I'm wasted
Your love is no fun
Chemicals with no chaser
