

# Kingsize

## Racoon

There's this southern snake  
50 feet and heavy as hate  
Long time gone for man to see  
True devil's servant, kill you and me I'm the venom in your bones like a rusty trigger  
King-size, heavy and all Down the drain man, ain't no king or queen  
Just the devil and his serpent, do you know what it means?  
And it's long to fall, no depth at it all  
Down the drain man like you and me There's this killing machine  
Bullets, guns, slaughter and mean  
One more, the clown won't stay, I left her away  
Ruling on the fucking kings highway I'm the venom in your bones like a rusty trigger  
King-size, heavy and all Down the drain man, ain't no king or queen  
Just the devil and his serpent, do you know what it means?  
And it's long to fall, no depth at it all  
Down the drain man like you and me Down the drain man, ain't no king or queen  
Just the devil and his serpent, do you know what it means?  
And it's long to fall, no depth at it all  
Down the drain man like you and me Down the drain man, ain't no king or queen  
Just the devil and his serpent, do you know what it means?  
And it's long to fall, no depth at it all  
Down the drain man like you and me Down the drain man, ain't no king or queen  
Just the devil and his serpent, do you know what it means?
