

Apartheid is Nazism

Alpha Blondy

I've never pretending have the truth
Anyhow I should listened to you
I'm very sorry is it right now
 Be a friend
 Don't look at my expand
 So concerned
 Despite your empty words
 I can be there but
 Leave me breathing
 Don't despair
 I know why
 I'm so alive
 Heads, to say you have it
 Tails to say you don't
 Lost for words and I think
 Time to take you home
 Caught you up a ladder
 Trying to end it all
 Is it any wonder
I believe no more You don't see dear
 You shouldn't play god
 You got something on your mind
 Just lock it off
 You smile a little more
 You stop saying no
You don't seem to be the trying type after all I'll break your foulng saying
 You could have been nothing
 Be a friend
 Don't look at my expand
 I can be there but
 Leave me breathing
 Don't despair
 I know why
 I'm so alive
 Do leave me breathing
 Don't despair
I know why I'm so alive You don't see dear
 You shouldn't play god
 You got something on your mind

Just lock it off
You smile a little more
You stop saying no
You don't seem to be the trying type after all
